FUGITIVE THOUGHTS ON AGRICULTURE. NO. 4.

Look around where you will, you always find that an educated Farmer is held in the highest esteem in the community where he resides. He is the great man in the sphere in which he moves. Let what reverse may come upon our community, the resources left us from the productions of the intelligent Farmer buoys us up amid the storm, and guides us, though shattered, safely to a welcome harbor. Though banks suspend, yet in the fields and barns all over our land we have the great *Bank*, established by the Creator, which no human effort can break or destroy. It is the life of the world; the pulse of the nation; the life blood that sustains us all.

——There is any amount of mental ability among the cultivators of the soil, but there is a great want of the necessary information to give proper direction to the intellect and energy now employed in agricultural pursuits. Our means of spreading knowledge on this subject is perhaps too limited. They ought to be increased. The *almanac* and the *spelling book*, both well enough in their way, are often times the only books to be found on the Farmer's shelf. Too many of this class exhibit an apathy and a dislike to useful literature that is strange and wonderful. His crops grow it is true, but he cannot explain the phenomena: his grass withereth before it is ready for the scythe, but he knows not the cause; his trees blossom and give promise of abundance, but the fruit comes not to perfection; he understands not the defect nor the remedy; his cattle sicken and die, but he can administer no relief. What proportion of our farmers can tell why ashes are more valuable on one soil than on another, or why lime is a fertilizer on one soil, and not on another? What combination of materials will make the cheapest manure? What is the proper depth of ploughing, and what is the advantage of subsoil ploughing? Is this kind of ploughing equally beneficial upon different kinds of soil, and why? Do plants receive the whole of their nourishment from the soil, or part from the atmosphere, and what from each? Of the solution of manures which filter downwards, or of those which rise as gasses, what portions escape into the atmosphere, and what portion is absorbed by the plants? What kind of cattle, horses or sheep are best for the Farmer? In short, *what Farmer so understands his business, as to be enabled to give reasons for his action, as the Judge on the Bench, gives reason for his decision?*

——It is a too common error to suppose that scientific knowledge is of no value to the Farmer, and to the great mass of our citizens. So far from this being correct now, there is scarcely a subject within the whole range of science but is of infinite importance for them to study and understand. "Facts are stubborn things," and every new discovery but adds to the pyramid already built, which neither the skeptic or unbeliever can either injure or destroy. Let this class—all who like the unbelieving apostle are very skeptical—attend our Fair next week, and they will be enlightened by the specimens of skill and industry that will be presented to their astonished vision. Seeing with their eyes and feeling with their hands the results around them, their incredulity will be removed.

THE ADVANTAGE OF FREE PUBLIC SCHOOLS.

The only safe guard to liberty is an educated and enlightened people. In our country there are no patents of nobility, no rights of primogeniture conferring distinction on account of wealth or birth. Our children should learn while young that the road to honor is open alike to the rich and the poor; that they must meet in after life in the broad field of free and equal competition. Hence the advantage of free public schools where the rich and the poor are educated together. It is a plan of education by which the former may learn that the real worth of men is not estimated by the amount of money which they possess, but by their talents, virtue and intelligence; that wealth confers no right to trample upon law and justice, and that they must labor if they would attain to truly honorable positions among their fellow men; and the latter may cease to envy the rich by learning that there is something more to be desired than wealth.

We call attention to the Prospectus of the *Republic*, the new Administration is just started in New York City. We are in receipt of several copies and are pleased with them. The paper is full of news, of good reading matter and ably written editorials. It is bound to take rank among the foremost of the metropolitan dailies.

A sensational novelist speaks of "a wife of three year's standing."—*Ex.*

A man who keeps his wife standing three years must be a brute.

PRESS NOTICES OF OUR FAIR.

The Press is kindly noticing our comeing Fair. These notices are appreciated by the Managers, and will be reciprocated when opportunity offers.

SECOND ANNUAL FAIR OF THE ALBEMARLE AGLICULTURAL SOCIETY, ELIZABETH CITY.—We have just received a complimentary invitation to attend the Second Annual Fair of the Albemarle Agricultural Society, of Elizabeth City, for which we tender our thanks. We are always much interested in the success of our North Carolina fairs. Knowing as we do that they tend to the improvement and furtherance of the agricultural pursuits, we advise all our Norfolk firms and merchants to send thither any articles they may have to exhibit, and be present themselves.

The Fair takes place on the 28th 29th 30th of this month. An address will be delivered by Senator Ransom on the second day of the fair.—*Norfolk Land-Mark.*

ALBEMARLE AGLICUTAL SOCIETY.—We are indebted to the Managing Committee of this excellent Society for an invitation to attend their Second Annual Fair at Elizabeth City, on the 28th 29th and 30thof October inst. It would appear to be the interest of our merchants that they patronise this enterprise of our neighbors of the old North State, and we hope they will do so.—*Norfolk Day Book.*

AGRICTUAL FAIR.—We return our thanks to Mr. M. B. Culpepper, Secretary of the Albemarle Agricultural Society, for an invitation to attend the second annual fair of the society, to be held at Elizabeth City on the 28th 29th and 30th of the present month. An address will be delivered by Senator Ransom on the second day of the fair. There will be trial of speed on the beautiful track each day. Competition in all the departments invited from all sections of the country.—*Virginian.*

FAIR OF THE ALBEMARLE AGLICULTUAL SOCIETY.—We have received from Dr. P. John, Chairman of the Executive Committee, a handsome poster, announcing the holding of the second Fair of the Albemarle Agricultural Society, at Elizabeth City, on Wednesday, Thursday and Friday, the 28th 29th and 30th days of this month. Hon. Matt. W. Ransom will deliver the address on the second day. Competition open to all.

We might individualize respecting the members of this Society—speak of the President, George W. Charles, Esq., a host within himself; the practical, pushing Chairman of the Executive Committee; the efficient and urbane Secretary, Mr. Culpepper; the Ehlowells, the Kennedys, the Pools and others, all indeed "representatives of the people" of the Northeastern section; a section of which too little is known by the citizens of other portions of North Carolina. Let all who can make it convenient to do so, attend this Fair.—*Raleigh Era.*

Our young friend Captain M. B. Culpepper is Secretary of the Albemarle Agricultural Association of the eastern portion of this State. The Fair comes off the week following ours—the 28th 29 30th. It will be a tiptop affair and we earnestly request our people up here to go down there and see what can be seen in the eastern part of the Old North State.—*Weldon News.*

"VIOLATION OF GOOD MANNERS."

CHARLES O'CONNOR, the eminent lawyer of New York, refers to the McENERY rebellion as "a violation of good manners." In his letter to the New York *Herald* he says: "The President is not authorized to correct, by armed force all violations of good manners occurring within a particular State." When ABRAHAM LINCOLN corrected by armed force that violation of good manners styled by HORACE GREELY as the "late controversy," and known to history as "the Rebellion," this same eminent lawyer questioned the constitutionality of the interference. "The State is supreme, the Federal Government is the creature of the State, what the State wills the Government must obey," have been the burden of his opinions since the days of CALHOUN.

In the North they have considered the overthrow of a State government by an armed insurrection an act of treason against the State, and the deliberate killing of a citizen as murder; but it has been left to CHARLES O'CONNOR to look through his Democratic spectacles at the outrages committed by his Democratic brethren of the South, and to see in their acts of lawless violence nothing but "a violation of good manners." If this shining light of Northern Democracy can see in the wholesale murder of helpless negroes nothing but a violation of good manners we may expect to see, when his party comes into power, the murder of a Republican defined on the statute books as "an impolite act." But if we read the signs of the times aright, this definition will not be incorporated in our statutes during the present century. CHARLES O'CONNOR may be an able lawyer, but his opinion on the legality of putting down a rebellion is worth about as much as the opinion of JEFF. DAVIS on the legal status of the Southern Confederacy.

THE OCTOBER ELECTIONS.

Ohio and Indiana have again gone Democratic. In the former the Greenback plank in the Democratic platform, and the Prohibition plank in the Republican did the business. In the latter the currency question and the Granger movement operated this "off year" to the advantage of the Democrats. In Iowa the Republicans swept the State as usual and in Nebraska the line is unbroken.

The October elections are closely scrutinized as affording an indication of public feeling with respect to the National Administration. They are usually marked by large opposition gains. The dissatisfaction with and criticism upon the party in power show themselves by neglecting to vote or bolting the regular nomination. But the returns this year show *less* loss to the administration than was counted upon, and less than LINCOLN sustained in 1862.

Notwithstanding the great opposition made outside of Massachusetts to Gen. BUTLER,—the frantic efforts of the Democrats and "Liberals" to defeat his continuance in public life, he was renominated for Congress the other day by a vote of 100 to 16. This would indicate that "Old Ben" is still popular at home.

It has been decided to hold an Agricultural Fair at Wilmington, this State, commencing on the 1st of December and continue four days.

Here is a man who evidently has a just appreciation of the value of the promises made by Congressional aspirants. His name is Magilder, and he lives in Colorado. Desiring to go to Congress, he announces in a card to the public what he can do for his constituents: "I promise to have a switch put in at the county seat in 16 minutes after my election; I pledge myself to produce rain whenever needed, thereby avoiding the necessity of irrigation; I will banish the grasshoppers from our land, and render the Eldorado of the West a Garden of Eden; I will work for nothing and board myself."—*Tribune*

This beats the late candidates in this section. We thought they were the most "promising" men we ever met or "hear'n tell on," but they must throw up the sponge to MAGILDER of Colorado.

At the Convention of Southern Republicans held at Chattanouga about 200 delegates were present. Ex-Governor Parsons, of Alabama, was elected President. The work of the Convention was put in the hands of the Committees, one of which will report a series of resolutions defining the political platform on which Southern Republicans are willing to stand; another committee will prepare an address to the people of the United States, and the third will take charge of the mass of affidavits and correspondence relating to the "outrages" to which Southern Republicans are subjected on account of their political views, and will make a digest of the same for publication.

The Monument at Springfield, Ill. erected for the late President LINCOLN was unveiled on Thursday last in the presence of over 25000 people. President GRANT, Senator OGLESBY and Hon. SCHUYLER COLFAX delivered addresses.

We see by the New York papers that the Rev. Dr. STROBLE, formerly Bible Agent of this State, delivered the opening sermon before the Evangelical Lutheran Synod in New York on the 15th inst.

The Democrats carry Arkansas as was conceded they would do. The result in West Virginia is very close.

Proceedings of Board of Education.

ELIZABETH CITY, N. C., October 15th, 1874.

Board met to-day. Present his Hon. W. A. Harney Mayor, Dr. P. John, L. C. Dashiel, G. W. Bell and M. B. Culpepper Commissioners.

Having examined Long Bridge and taken legal counsel on the matter, the Mayor and Commissioners find that they are obliged to put in a Draw and to make extensive repairs to the Bridge, both the plank and timbers being rotten. It is deemed economy to have the bridge shortened as it is found that it can be done nearly as cheaply as putting in new timbers and plank and when done obviate future expense. To do the work according to the following specifications has been estimated to cost at least $700. Dr. Underwood having agreed to take the contract at $500, making up the deficiency by private subscriptions the following ordinance was passed:

The Corporation of Elizabeth City agree to pay Dr. Underwood $500 in orders on condition that he reconstruct Long Bridge over Charles Creek as follows: Make a good substantial "Draw" 12 feet wide and 24 feet long, of solid heart timber and with the necessary cast ings, irons &c, and fills up at each side of the creek with solid foundation 18 feet wide and in length sufficient to shorten the plank surface of the bridge, including the Draw, down at least to 55 feet, covering all said solid work above the water with earth. The work to be commenced at once and finished by Jan. 1875. The passage of vehicles not to be obstructed exceeding 30 days. Payment to be made on completion of the work.

And on motion his Honor, the Mayor appointed Dr. P. John, M. B. Culpepper and Walter F. Pool, Attorney, a Committee to make the contract as above with Dr. Underwood.

An ordinance was passed in reference to Auctioneers license, and ordered to be printed (see advertising columns).

W. A. HARNEY, Mayor,
THOS. GASKINS, Clerk.

The Prince of Wales' Last.

His Royal Highness has been detected in many an act which has startled the Queen. The last of which is said to be the ordering of $20,000 worth of tickets for the Public Library of Kentucky. Her Majesty, it is stated, did not object to his buying liberally, but in the present condition of the Prince's finances, she thought $20,000 worth was too much for him to invest. It is asserted that he insisted on sending his order to Governor Bramlette, assuring his royal mother that he knew what he was about, for that as $2,500,000 was to be distributed to the ticket holders on November 30, and in such gifts as $250,000 $100,000, &c., he would have a splended chance at one of these splendid prizes, and thus, easily pay his debts.

The Crops.

The report of the Department of agriculture for September does not give a very encouraging view of the crops prospects. It says of the

Corn crop—None of the large corn producing States reach an average, while several of them show a decline from even last year's depressed condition.

Wheat.—The average state of the wheat crop of the United States is two per cent less than the average of Sept. 1873; but the increased avreage will bring the yield up to nearly the average of that of last year.

Cotton.—The September returns indicate a heavy decline in the prospects of the cotton crop in all the States except Virginia.

The Attorney General of the United States has pointedly but respectfully denied to Gov. Brown of Tennesee, the exclusive charge of the Gibson county murders of sixteen inoffensive colored men in cold blood. He says that to "admit that persons charged with and arrested for a criminal violation of the laws of the United States ought to be turned over for trial to tribunals of the State in which the crimes are committed, upon a demand of the Executive thereof, because such persons may also be chargeable upon the same state of facts with a violation of a State law, would be to surrender a power essential to the existence of national authority and introduce a practice that would tend more to retard than promote the administration of justice."

There is a Baptist preacher named Moody in Caldwell county who preaches three times a week and walks twenty-seven miles to do it. His labors extend over four counties.

The estate of the late Senator Sumner has just been appraised in Boston at $134 758.

There are seven buildings belonging to individuals or corporations valued each at over one million dollars in New York city.

Boston pays $3,500.000 per annum for the support of her poor, enough, so a local paper thinks to board all the needy at a first-class hotel.

Thirty-eight women in the United States are filling the place of Christian ministers and pastors in several denominations, not reckoning those in the Society of Friends.

DISMAL SWAMP CANAL.—The water has been turned out of the Gilmerton cut of the Dismal Swamp Canal, and a force of 65 hands commenced deepening it on yesterday morning.—*Norfolk Landmark.*

Mr. Christian K. Ross, father of the abducted child, Charlie Ross, is reported to be in a sinking condition. It is said that for several days past his reason has been growing fainter.

It has been discovered that the jointed fishing rod was invented because one can't hide a long cane pole under his coat Sundays.

"What can we do?" inquired the Methodist ministers. "to make Sabbath schools more interesting?" Take the boys out fishing.

NEW ADVERTISEMENTS.

Iron in the Blood
PERUVIAN AN IRON TONIC SYRUP
MAKES THE WEAK STRONG.
The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.
This is the secret of the wonderful success of this remedy in curing **Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints,** ***and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.***
Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.
See that each bottle has **PERUVIAN SYRUP** ***blown in the glass.***

KINKEL'S We would call the

NORTH CAROLINIAN
WEDNESDAY, OCT. 21, 1874.

☞TO NORTHERN VISITORS.☜

Elizabeth City is 50 miles South East of Norfolk, Va. Parties coming here from the North should take passage on the Bay line steamers which leave Baltimore at 4 P. M. every evening, and arrive at Portsmouth the next morning in time to connect with the Elizabeth City Steamers.

THIS WEEK'S ADVERTISEMENTS.

The Republic.
Talmage's paper
Ordinance.
C. West, & sons' oil.

Local and Personal.

☞To cure dull times—apply an advertisement to the afflicted parts.

☞Gold at New York 110¼, cotton 15½c. At Norfolk cotton, 14¼cts.

☞Clergymen, editors and officers of neighboring Agricultural Societies will be admitted free to the Fair.

☞The Dismal Swamp Steam Transportation Company will carry passengers and articles for exhibition to the Fair at half usual rates.

☞A five legged Calf, a live, full grown Bear, just captured in the Dismal Swamp, and a lot of Imported Fowls will be on exhibition at the Fair next week.

☞Farmers! bring samples of corn, and oats, and wheat, and potatoes to the Fair. This is a farming country and it is expected to see samples of all the crops raised put on exhibition.

☞We hear of several fast horses that will be here on the three days of the Fair; also of a few *slow* ones to compete on the last day for the "Canuck" purse. The sport loving public will be gratified.

☞How is this for high? It is from the Danbury *News* man: Ye who are eating the apple dumplings and treacle of wealth should not forget those who are sucking the herring bones of poverty.

☞A gentleman on renewing his subscription to the NORTH CAROLINIAN last week paid it a compliment by saying he would rather economize by cutting off some of his other luxuries than his paper. His head is level.

☞A correspondent makes inquiry of the whereabouts of a former sojourner here. We can't enlighten him. The case is one forcibly reminding us of the quotation, "Though lost to sight, to memory dear," He left without liquidating his bills!

☞Well, the "cussin" season is upon us. The time for putting up stove pipes is here. Our reporter has been round. We have his word for it that for every length of pipe put up last week there was, on an average, fifteen compound fractures of the Third Commandment. We usually send for the stove man to do the job for us.

☞All lovers of flowers must remember that one blossom allowed to mature or "go to seed" exhausts the plant more than a dozen buds. Cut your flowers then, all of them, before they begin to fade. Adorn your room with them; put them on your tables; send boquets to your friends who have no flowers, or exchange favors with those who have. On plants kept for the flowers only, not a seed should be allowed to mature.

☞Everybody must go to the entertainment to be given on the second night of the "Albemarle Society's" Fair, by the "Elizabeth City Minstrels." We are acquainted with the young gentlemen who compose the troupe, and believe they will give satisfaction. Be sure to go, or when those who availed themselves of that opportunity speak of the songs, plays, and side-splitting jokes, you will deeply regret not having done so.

☞Reports were current here last week that the Pioneer Transportation line had decided to cease stopping at this place. This created some uneasiness as the Dismal Swamp Transportation Company is unable to carry the freight now accumulating in and for this section. We are informed that it has been decided by the Pioneer Company to continue their Boats here from Norfolk, but to discontinue, for the present, on their re-return trips. We hear that the books of the Company show that with perhaps one exception Elizabeth City is the best paying point on their route.

☞Remember that in one week from to-day the Fair begins. The buildings are completed and the work on the track nearly finished. Everything the Managers can do has been done. It is now for the *people* to fill up the various Departments with articles for exhibition. The ladies will do their part—they never fail in a good cause, and we see a disposition manifested among the farmers, the mechanics and the merchants to help all they can. Let there be more stock entered than there was last year, also more corn, and wheat, and oats, and vegetables. Common as these articles may seem to be they are specially adapted to and expected at Agricultural Fairs—the more of all of them the better.

☞Some-body ought to write a book on "Rascals in Common Life," and if he wanted illustrations he should go to almost any town and engage in the publication of a newspaper. Then he would see the human soul in all its infinite littleness which it is capable of assuming. Men take papers for years, trusted because they have the name of being honorable, and when the bill is sent repudiate the debt or try to lie out of it. For a few dollars which they justly owe to another, they grovel in the dust and debase their souls almost beyond redemption. Having had some experience with some of these customers, wasting type and ink for their benefit, we are almost tempted to use some more to place in print the names of all who deliberately and meanly cheat the printer out of his dues.

☞CHARLES THOMAS a colored man confined in our jail on the charge of larceny broke out last night, by boring through the wall. He evidently had assistance from the outside.

☞United States Court opened here on Monday. There is a considerable number of lawyers in attendance from Hertford, Edenton and other points. U. S. Marshal HILL and U. S. District Attorney BADGER did not reach here until last night. Court is still in session as we go to press.

☞The condition of the Dismal Swamp Canal is such that trasportation through it has become "mighty uncertain." It is almost unbearable. It not only interferes, and that most severely, with the business of Elizabeth City and surrounding country, but it tends to check our prosperity and progress. The Steam Transportation Company do about all they can, but they havn't the power to accomplish impossibilities. We know that Capt. HARNEY, the Agent at this place, is doing his "level best" to keep things moving and have everybody accommodated. No blame attaches to him, nor specially to the Company, but until the canal is repaired—or entirely closed—we fear the chances of a peaceful hereafter to those who are obliged to do business *on, through or with* it, will be greatly lessened. Our only salvation is the railroad. And we reiterate, what we have so often said, *it will come!* Every day the people are feeling more and more the necessity of it.

☞The following is the programme of the Fair which will begin on Wednesday of next week, being the 28th inst. *First Day*: All articles for exhibition should be entered on the first day, and they will be neatly arranged in their proper departments by the Superintendents. There will be a RUNNING RACE in the afternoon testing the speed of horses. A band of music will be in attendance. *Second Day*: An address will be delivered at 11 o'clock in the morning by Gen. MATT W. RANSOM, United States Senator. At three o'clock P. M. there will be a trot by double teams of horses. Two Bands of Music will be on the grounds. *Third Day*: In addition to other amusements there will be a "Canuck" race at 11 A. M.—a contest between the *slow* horses. No one to ride his own animal, and the *last* horse out to have the premium. The Judges will, during the day examine every article on exhibition and report at their earliest convenience At 3 o'clock P. M. the sweepstake race will take place. There will be excellent music during the day. The admission the first day will be 25cts. Persons entering articles will be admitted free. The price of tickets for second and third days will be 50 cents each day. Children under 12 years 25cents. Family tickets, admitting three persons, members of the family, during the three days of the Fair; $2,00.

☞At a meeting of the Executive Committee of the Albemarle Agricultural Society held on Saturday, October 17th, the following members were present: Dr. P. John, Geo. W. Charles. C. W. Hollowell, Geo. D. Pool and Rev. W W. Kennedy. The following is a list of the Judges appointed to examine and report on the articles exhibited at the Fair. The Judges are requested to meet at the Secretary's office on the Fair Grounds at 9 o'clock on Friday morning, Oct 29th and receive thier instructions:

1 ON HORSES—E. C. Albertson, Thos. J. Murden and Miles Commander.

2 ON CATTLE—Stephen D. Scott, Miles Whithurst and James Towe, of Woodville.

TEXAS GIFT CONCERT ASSOCIATION—This Association at Denison, Texas, is now fairly established and orders are pouring in daily from all parts of the United States, and with the many large gifts there is no doubt but that every ticket will be sold within the specified time advertised, and with the low price of one dollar a ticket, every one should try his luck.

TALMAGE'S PAPER.—The Christian at Work (New York) ranks with the best of the religious weeklies. Dr. TALMAGE is its active editor, and his sermons are published exclusively in its columns. The terms, $3,25 per annum, cover everything, including postage and delivery of the new premium, a "Portfolio of Twelve Gems," or a copy of LANDLEER'S "Twins." Without the premium it is only $3 per annum, postage prepaid, as above. Agents will find this a success.

We invite the special attention of our readers to the advertisement of C. West & Sons, Baltimore, Md. These gentlemen are the sole proprietors of the widely celebrated "Aladdin Security Oil," which now takes the first rank among all Oils offered throught the entire country. In the use of this Oil, which guarantees a fire test of 150 degrees, accidents are unknown, and the name of C. West & Sons is alone sufficient assurance that "Aladdin Security Oil" is all that its name imports. As it burns in all Coal Oil and Kerosene Lamps, no change of burners or chimneys is required.

THE CANT OF IMPOSTERS—It is obvious that physical and constitutional vigor is the best defense against disease, that even the vendors of drastic purgatives advertise them as tonics, stomachics and invigorants, in the hope of enlisting the confidence of the public in the devitalizing and pernicious portions. It is amusing to note how these impostors imitate and copy the language in which the medicinal properties of Hostetter's Stomach Bitters are described Although the effect of their rasping evacuants is to destroy the tone of the digestive organs and the bowels, and to rob the system of its vital strength, they are unscrupulously recommended to the weak and prostrate victims of disease as stimulants! It is time this humbug (not a very successful one it is true, thanks to the mature common sense of the American people) was stigmatized as it deserves Such mischievous falsehoods should be exposed pro bono publico Hostetters Stomach Bitters, be it distinctly understood, is a stimulant I, has a spirituous basis, and that basis is the vehicle which diffuses its wonderful sanitary principles through every part of the system The tonic, alterative and regulating ingredients [illegible] comparatively inert; if they were not, so to speak, carried to the localities where they are required by the stimulating agent The cant which protests against the use of a pure alcoholic fluid, when employed as a means of giving full effect to medicinal extracts of the highest utility, is the cant of charlatanism Every intelligent physician so characterizes it, and the sick who are griped, convulsed and debilitated by the nauseous and disgusting nostrums of the parties who put it forth soon find to their sorrow that it is a delusion and a snare Hostetter's Bitters, the great sanitary stimulant of the age, is, in the truest sense of the word, a whole some, vitalizing, renovating preparation.

Postage five cents per copy for three months.

Any larger number, addressed to names of subscribers, $1 50 each.

An extra copy will be sent to every club of ten.

Twenty copies to one address, one year, $25, and any larger number at the same price.

Two extra copies will be sent to clubs of twenty.

These rates make the WEEKLY HERALD the cheapest publication in the country.

Terms cash in advance. Money sent by mail will be at the risk of the sender.

A generous portion of the WEEKLY HERALD will be appropriated to Agriculture, Horticulture, Floriculture, Pomology, and the management of domestic animals. Particular attention will be paid also to Reports of the Markets.

The aim will be to make the WEEKLY HERALD superior to any other agricultural and family newspaper in the country.

Every number of the WEEKLY HERALD will contain a select story and the latest and most important news by telegraph from all parts of the world up to the hour of publication.

During the session of Congress the WEEKLY HERALD will contain a summary of the proceedings and the latest News by telegraph from Washington. Political, Religious, Fashionable, Agricultural, Literary and Sporting Intelligence; Obituary Notices, Varieties, Amusements, Editorial Articles on the prominent topics of the day, a review of the Cattle and Dry Goods Markets, Financial and Commercial intelligence and accounts of all the important and interesting events of the week.

The HERALD employs no agents in the country nor in distant cities to canvass for subscribers, as none are necessary. Any person pretending to be an agent for the WEEKLY HERALD should be treated as a common swindler. The club system has abolished the agency system. It is safe and cheap.

The price of subscription, whenever practicable, should be transmitted by Post Office Orders. It is the safest mode of transmitting money by mail.

At small Post Offices in the country where Post Office Orders cannot be obtained, money may be remitted in Registered Letters.

Advertisements, to a limited number, will be inserted in the WEEKLY HERALD.

Price of the DAILY HERALD, four cents a copy. Annual subscription price, $12, always in advance. Write the address on letters in a bold and legible hand, and give the name of each subscriber of Post Office, County and State so plainly that no errors in mailing papers will be liable to occur. 15—3t.

Developing the Fertility of the Soil.

Rain, sunshine, alternate heat and cold together with the powerful action of electricity, have been disintergrating, pulverizing and disolving the rocky surface of the earth from time immemorial, for the purpose of producing a soil adapted to the production of useful plants which, in process of time, become adequate to the sustenance of living creatures. A fertile soil must be formed before useful plants & fruit can grow; and useful vegetables, grain and must grow out of the soil, or animals and human beings cannot propagate their species. But pulverised granite, ground gypsum, marble dust, or the flour of shale, or slate, if ground ever so fine, cannot be denominated a soil. Still if the surface of a barren country were covered a foot or more in depth with finely pulverized rock (say the flour of granite) the unavailable fertility in that mellow bed could be easily developed so as to produce a soil that would yield one hundred bushels of Indian corn to the acre, or forty bushels of fine wheat, or three tons of prime hay per acre.

Certain species of weeds and plants possess a wonderful power in prepairing a soil for the luxuriant growth of vegetables and grain-producing plants. Fertile soils have been formed simply by the fertilizing material which was annually restored to the seed bed when all vegetable growth returned to dust. Taking the hint from the instructive operations of Nature, tillers of the soil can readily perceive how easily a piece of ground of only ordinary fertility can be made to yield one hundred bushels of shelled corn per acre, forty bushels of wheat, one hundred of oats, or one thousand bushels of excellent turnips. This can be accomplished by sowing about four bushels of Indian corn per acre twice every season, and ploughing the green crops under for a few successive years.

Hygienic Notes

Give them Cold Water—It is very doubtful if there is a single possible disease in which the patient should not have cold water *ad libitum*. Oh, how babes often suffer for cold water! A nursing baby is given, no matter how thirsty, nothing but milk. The little lips are dry and cracked, and the little tongue so parched it can scarcely nurse, and yet it has nothing but milk to assuage its craving thirst. Try it yourself, mother, when you have a fever, and we are sure that ever after, when your darling is dying with thirst, the teaspoon and tumble of cold water will be in constant use.

Earache—Perhaps some mother may thank the Household for my remedy for earache. I take a piece of salt pork, say an inch or more long and half an inch square, cut down one end to fit the ear, and insert it, taking care to have the piece too large to slip in. I use it with my family, and always find it gives almost instant relief. Tie a handkerchief to keep it in place, if the child will allow it. I also use pork for sore throat, croup and lung colds. Cut slices half an inch thick, dip in warm water, sprinkle on a little pepper, and sew on flannel.

The Use of Weeds.

Will not weeds take possession of the old meadows after a while? Yes, if the meadows are not properly fed. There is some truth in the maxim of the ancients that nature abhors a vacuum. Weeds abound on old, worn-out lands simply because the proper nutriment for a more delicately organized herbage has been exhausted. With daises and goldenrod, and even hard-hacks, are better than utter barrenness In their decay they furnish food for a better class of plants. Nature is determined to produce something, and if left to herself always produces that to which the soil is most congenial. If water abounds coarse, aquatic plants will as surely grow without any sowing of the seed, as will corn when planted in good loam. We have seen alluvial meadows that had for a long series of years produced large crops of good hay, being kept in good heart by a deposit of fine fertilizing material in the annual overflow of a neighboring giver, suddenly have their herbage changed to reeds and rushes by the damming of this river, and the consequent setting back of the water over their surface. In those parts of the meadows where the water did not come within a foot of the surface, the character of the grass was changed.—*Ind. Farmer.*

Colored wash for Fences.

The following says the Massachusetts *Ploughman*, is a most excellent, cheap, and durable wash for wooden fences and buildings. It owes its durability to the *white vitriol* which hardens and fixes the wash:

Take a barrel and slack one bushel of freshly burned lime in it, by covering the lime in boiling water.

After it is slacked, and cold water enough to bring it to the consistency of good whitewash. Then dissolve in water, and add one pound of white vitriol (sulphate of zinc), and one quart of fine salt.

To give this wash a *cream* color, add one-half a pound of yellow ochre, (in powder). To give it a *fawn* look, add a pound of yellow ochre and one-fourth of a pound of Indian red.

To make this wash a handsome gray stone color, add one-half a pound of French blue, and one-fourth pound of Indian red; a drab will be made by adding one-half of a pound of burnt sienna, and one-fourth pound of Venetian red.

For brick or stone, instead of one bushel of lime, use half a bushel of lime, and half a bushel of hyraulic cement.

Cut Flowers.—All lovers of flowers must remember that one blossom allowed to mature or "go to seed" injures the plant more than a dozen buds. Cut your flowers, then, all of them, before they begin to fade. Adorn your room with them; putthem on your tables; send bouquets to your friends who have no flowers, or exchange favors with those who have. On bushes not a seed should allowed to mature.—[The Garden.

NEURALIGA.—Prepare horse-radish by grating and mixing in vinegar, the same as for table purposes, and apply to the temple where the face or head is affected, or the wrist when the pain is in the arm or shoulder.

REMEDY FOR CROUP.—Half a teaspoonful of pulverized alum in a little molasses. It is a simple remedy, one almost always on hand, and one that seldom fails to give relief. If it should, repeat it after one hour.

There is no hope for a woman who longs and prays and waits for the coming of the perfect man; for, even if he did come he would not have her.

CURED BY

POND'S EXTRACT

(J. N. H.).

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great Blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases.

If men will enjoy good health, let them use VINEGAR BITTERS as a medicine, and avoid the use of alcoholic stimulants in every form.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Dizziness of the Chest, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammation Indolent Inflammations, Mercurial Affections, Old Sores, Eruption of the Skin, Sore Eyes, etc., etc. In these, as in another constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics, will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Jaundice.—In all cases of jaundice, rest assured that your liver is not doing its work. The only sensible treatment is to promote the secretion of the bile and favor its removal. For this purpose use VINEGAR BITTERS.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

OF THE

NORTH CAROLINA LANDS,

FOR SALE BY

GEORGE D. POOL.

Real Estate Agent,

ELIZABETH CITY, N. C.

In presenting my list of land and other properties for sale, I would say that this section of the United States offers such inducements for capitalists and emigrants, as no section of North Carolina. Its convenity and healthfulness, it will become a favorite with all who desire and in easy and cheap access to markets for products to markets, in fact in the sociability of the people, the fertility, and durability of soil, no section can equal.

There are fourteen steamers—most of them of large size—now plying between this place and Norfolk, Va., and Baltimore, making the town easily accessible to emigrants, and the means of cheap water transportation for farm products, and other articles, unsurpassed. In addition to these railroad, &c.

A railroad will soon be built to Norfolk, putting this place in direct communication by Rail, with the whole country. This, together with our great water power and manufacturing interest, and certain completion of already projected works of improvement for putting in easier, cheaper communication with the Ocean will render this one of the most important commercial, and manufacturing points on the Southern coast.

A desirable farm of 200 acres—one third cleared, on the main road covered with the most valuable timber the country affords is offered for sale. It is six miles from town, one mile from navigable water, has four buildings, is in a good neighborhood and on a very public road. There is a school within one mile and a church within two miles of the place. The land produces finely, corn cotton, wheat, oats, etc., and is offered for the low price of $5 an acre on easy payments.

Another farm equally valuable as the above containing 136 acres is offered for sale for $5.66, one half cash balance 1 year with interest. This farm is within one mile of navigable river, is only one mile from town, and school house, has good buildings and all necessary out-buildings upon it. It is nicely cleared, and is very productive. It is only six miles from Edenton, and is within two miles of the town of Norfolk.

A farm 490 acres 2 miles from town is offered for $18 an acre. This is rich land is mostly cleared, and has good buildings. On account of its locality and productions it is very desirable.

A valuable farm of 219 acres is offered for sale for $1,500, one half cash balance in a year. This farm is within one mile of town of Nixonton, and seven miles of Elizabeth City. It has good Locality is on a public road, and in a good neighborhood where school houses and churches are near. Two-thirds of this farm is cleared and under cultivation, and the balance is in good timber. This is a rare bargain offered in this farm.

A valuable farm of 200 acres, nearly all cleared is offered for $1,000 on easy payments. This farm is within two miles of town, is near a navagable river, in a good neighborhood, and in very near the market. This very near the market. This is a rare chance to get a good farm. A farm of 400 acres is offered. The land is rich, the timber is fine and the soil mostly in fine cultivation. Price $25 per acre.

A farm of 500 acres in Pasquotank County, 6 miles from town, and one mile from the River, with good new dwelling built in modern style, barn, stables, four tenant houses scattered over the farm, fine water, &c. This farm is situated on the most public road in the County, has 300 acres cleared and balance in splendid pine, oak, cypress, maple, sweet gum, and other valuable timber. It is peculiarly adapted to raising cotton, $50 per acre, net, having been realized on a part of it this year in cotton. It also grows corn, wheat, oats, and other crops well. Price $12,000 in easy payments.

Three farms—one of 100 acres one of 80 acres and one of 190 acres, within two miles of town, mostly cleared land. Price $20 per acre for each tract—payments on easy terms. Also many other valuable farms and town lots too numerous to mention.
